ABOUT THE BRAND

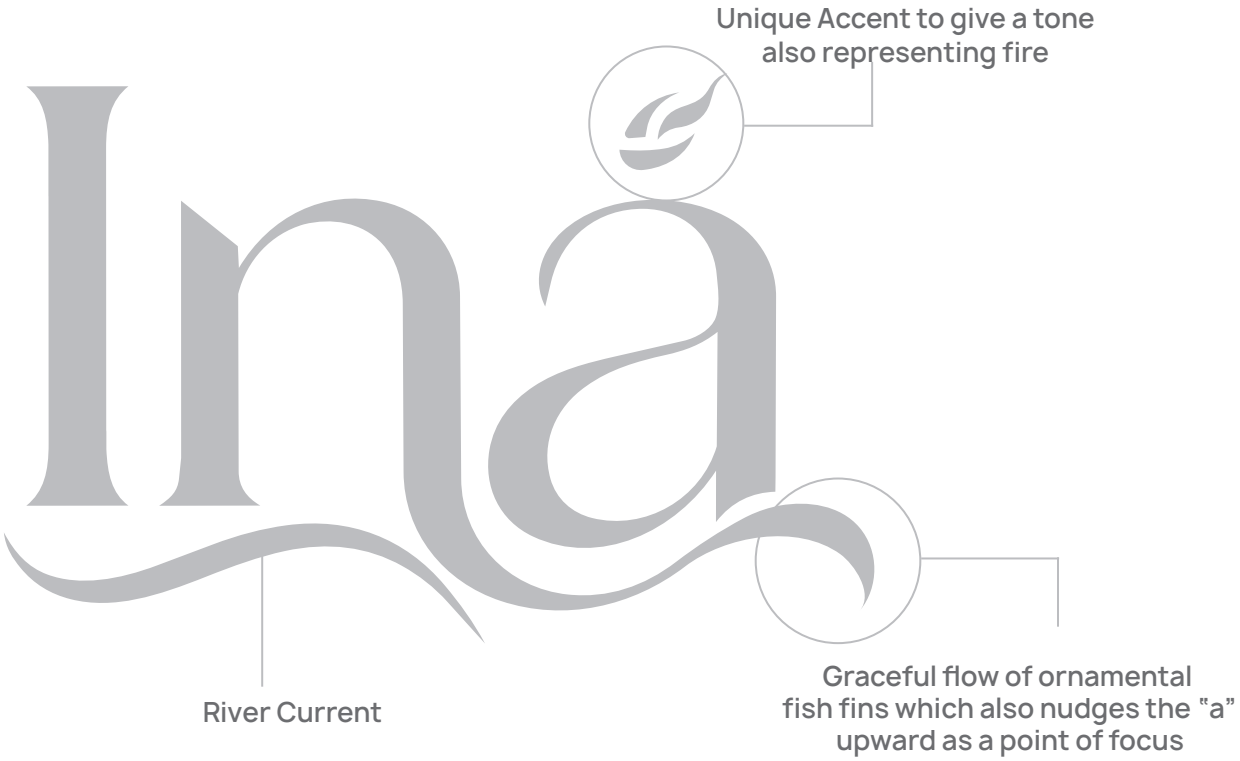

Iná Ornamental Fish is a Nigerian ornamental fish export company supplying rare and high-quality West African fish species to wholesalers, distributors, and specialty aquarium retailers across Europe, Asia, and North America. The brand combines professional export standards, sustainable sourcing, and authentic African aquatic heritage to deliver prbbemium ornamental fish to the global aquarium industry.

LOGO BREAKDOWN

The customized typography is what gives the logo its uniqueness and premium feel. The serif structure adds sophistication and credibility, while the flowing custom curves introduce softness, movement, and aquatic elegance. The extended strokes subtly resemble water currents and ornamental fish fins, creating a strong visual connection to the brand without using literal fish imagery. The balance between sharp serif details and fluid ligatures makes the logo feel refined, memorable, and intentionally crafted specifically for Iná.

COLOR PALETTE

Iná
ORNAMENTAL FISH

River Green

HEX: #3B65D
R G B: 59 108 93
C M Y K: 78 39 64 22

The colour of clear river water reflecting the forest canopy. This is the living water of West African rivers — the same waters our fish swim in. Deep, alive, peaceful, never still.

Dawn Gold

HEX: #D4A85F
R G B: 212 168 95
C M Y K: 17 33 73 00

The colour of first light on water at sunrise. Not luxury gold. Not metallic. The soft, warm gold of morning. This is Iná rendered as the holy fire that gives life, not the worldly fire that consumes. It is also the colour of resurrection morning.

River Stone

HEX: #EFE7D6
R G B: 239 1231 214
C M Y K: 05 07 15 00

The colour of smooth stones along the riverbed, warmed by the sun. Warm, light, premium without being cold. The foundation that holds everything else.
